

HELLO, WORLD!
THIS IS BITCODE

*An online platform that teaches
people how to code in an interactive
way in Arabic.*

THERE IS NO ARABIC CONTENT IN TECH
OR HOW TO LEARN PROGRAMMING.

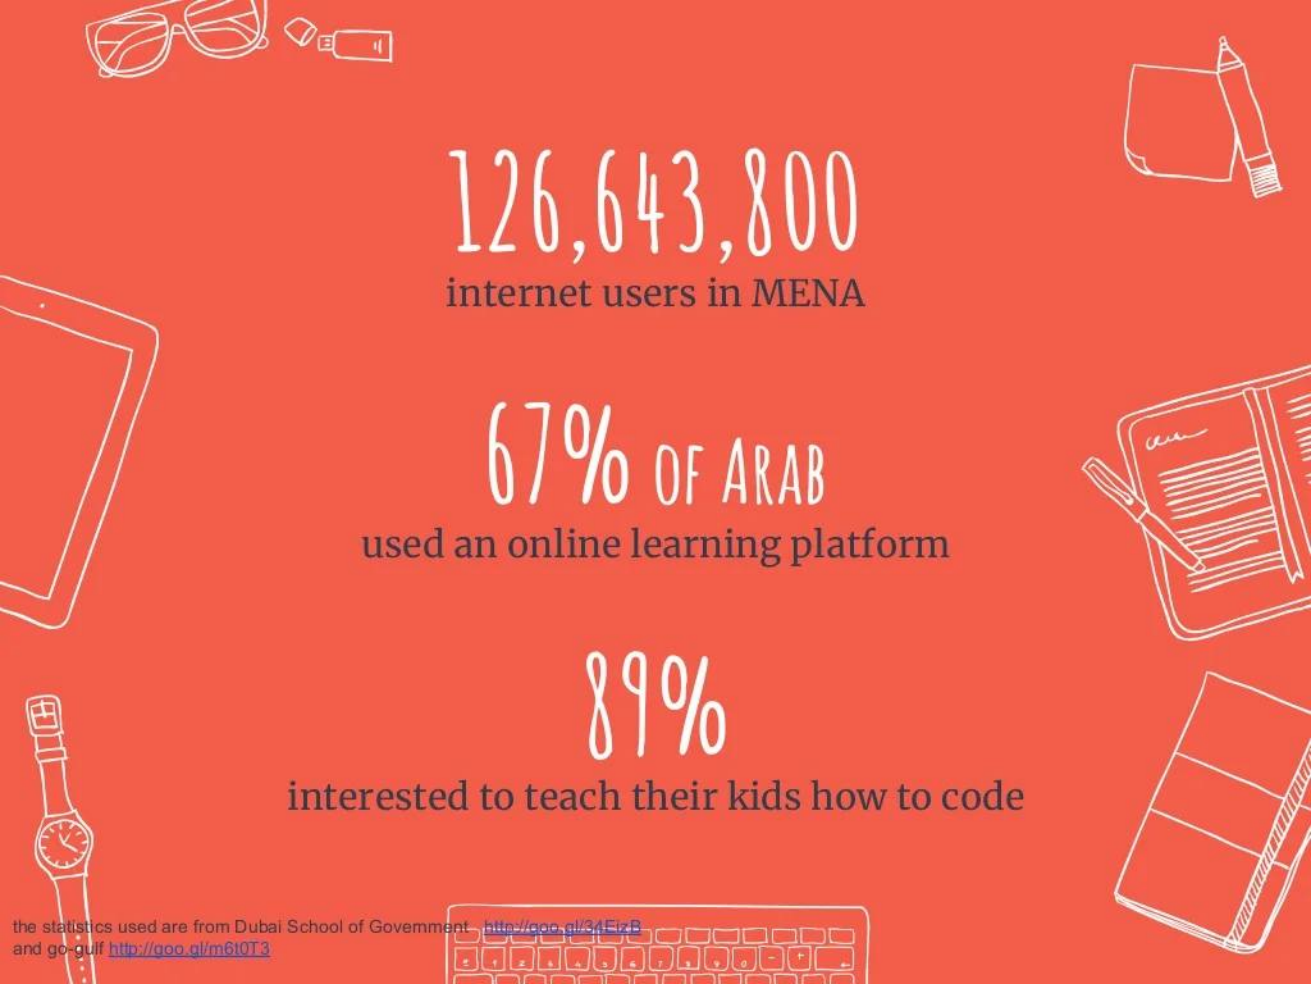

WHAT IS BITCODE?

BITCODE APP

Will be available soon.

126,643,800

internet users in MENA

67% OF ARAB

used an online learning platform

89%

interested to teach their kids how to code

the statistics used are from Dubai School of Government - <http://goo.gl/34FzB>
and go-gulf <http://goo.gl/m61OT3>

OUR COMPETITORS

coursera

lynda.com

udemy

codecademy

Code School

treehouse

CODE AVENGERS

KHANACADEMY

BITCODE ACHIEVEMENTS SO FAR..

- ❌ **2 Course**, 12 Chapters, 53 Challenges, and 1 interactive game.

WITH WHOM WE SPOKE?

BITCODE BUSINESS MODEL

Sell Pro Courses

We will target about 250,000 users in our first year, and launch the Pro Courses for 25\$ a month, if 2% pay one course that will be **125,000\$** in revenue.

Workshop and Event

We will host offline workshops to market our platform, or generate revenue from workshop registrations for students, we plan to sell our courses to schools for 200\$ for each student. If we can get 20 students every month we will get **4,000\$**

FUNDING FOR FIRST YEAR WILL BE FOR:

6,000\$

Equipment and outsourcing for producing of courses.

10,000\$

Salaries for 4 BitCode Ninjas.

4,000\$

Marketing budget for BitCode platform.

1,000\$

Hosting, and other licenses for software.

3,000\$

Office rent and other logistic from internet, elasticity..

2,000\$

Budget for offline workshop and first BitCode Hackathon in Damascus.

26,000\$

ONE MORE THING

THE FIRST HACKATHON IN SYRIA

28 APRIL

BitCode Hackhakton Damascus

THANKS!
